Professional Experience

Front End Developer

Freelance   *March 2021 – Present*

- Designed UI templates and developed custom websites using React, HTML5/CSS and JavaScript ES6.
- Implemented various algorithms to solve coding problems encountered during development.
- Used React to create single-page apps, such as my Portfolio Website.
- Built multiple projects most of which are available for preview at my Portfolio Website.

Profile

I'm a motivated and passionate front-end developer specialized in building responsive, reusable, and maintainable UI to provide amazing user experience. I completed my Bachelors in Interpretation from Far Eastern Federal University in 4 years. During the time I wrote multiple articles on Japanese literature and even received the Japan Foundation research grant.

With the same passion I am now pursuing a career in web development.

Projects

InContact – a Social Network

- Developed a full-scale single-page app using **React** and **Redux**. GitHub Repo Here.

Checkers Game

- Built Checkers game using **JavaScript**, CSS, and HTML. GitHub Repo Here.

Calculator Website

- Developed a simple calculator using HTML/CSS and JavaScript. GitHub Repo Here.

LocalLib

- I am currently building a full-stack local library web application using **MongoDB**, **Express**, **React** and **Node.JS**. The website will be used by a local library clientele to interact with the real library.

Education

Bachelor's Degree in **Language Interpretation and Translation**	2018-2022

- Far Eastern Federal University, Russia.

Exchange Program	2022-2023

- Budo International University, Japan.

Technical Skills

- JavaScript, TypeScript, React, Redux
- Experience with SQL, Firebase, Rest API
- MongoDB, Express, Node.JS

Languages

- English (Advanced, C1)
- Russian (Native)
- Japanese (Intermediate, N3)
